WAR'S DREADFUL TOLL REALIZED IN AUSTRIAN CAPITAL

Coal Have Doubled in Vienna.

Zurich, Switzerland, Nov. 30 .- After fourteen months Vienna is begin-ning to realize the effects of the war, which hitherto had left little out-ward mark on the life of the Austrian capital. But in the past few weeks prices of food have advanced by leaps and bounds. Coal is becoming scarcer and dearer, just as winter is approaching. Clothing has doubled in price. And altogether the imme-diate outlook for the great masses of the population is extremely dismal. Much of the trouble is due to the

army having taken nine-tenths of the strong, able-bodied laboring men from the city. Hardly any teamsters gary are recent statement that their in-and provisions, and coal are lying in

factured materials. I say this is unfortunately true because I realize that we will be working for the next 20 years to pay what we owe. Not before that time can we begin to put any profits in our own pockets. The fear that so soon as the war is ended the manufacturers now busy making. Ever example, recently the entire population—only 24—of an internment camp near Budapest, were given a week's leave to attend the limit the manufacturers are before their leave was up:

Another cause of the present high prices of food is the manipulation of speculators, who are hiding large stores of provisions, and so creating an artificial shortage in the markets.
